

## **VOLUNTEERS NEEDED – PATHWAYS TO EDUCATION PROGRAM**

### **Rexdale Community Health Centre**

**Pathways to Education** is a program that offers academic, financial, social and advocacy support to high school students, with a strong focus on tutoring and mentoring for youth. This program has met with great success in Regent Park, where 95% of area youth are enrolled. We are committed to achieving the same kind of success here in Rexdale (Jamestown) with the launch of a brand new location, starting September 2007!

We are looking for **VOLUNTEER TUTORS AND MENTORS**. Share your motivation and background as a volunteer working with youth! Volunteers are required to make a minimum commitment of **two hours a week**, and will be responsible for developing and delivering sessions in either mentoring or tutoring for this year's first batch of grade nine participants. Both tutoring and mentoring take place in a group setting, and full staff support is available for you in both capacities.

This is a great opportunity to get involved in a truly meaningful community development initiative, and to make a difference in the lives of our youth. Tutoring and mentoring will increase students' self esteem and confidence, and help them to develop a sense of connectedness, and ownership in the world around them.

If you're interested in receiving more information about placements, registration, orientation and training, please contact:
